

*The Citation Mustang Jets that arrived at the meeting*

## **Dresden has probably never seen so many Citation Mustang Jets at the same time!**

From 01.10. – 03.10.2021 almost 60 members of the association „Citation Mustang Interest Group“, short “CMIG”, met for the annual general meeting and the technical seminars in the Hotel Gewandhaus Dresden. As expected, almost all foreign participants came with their planes. The perfectly organized event became a gain in knowledge and contacts for all participants. Dresden Airport worked extremely professionally, a stroke of luck for all approaching and departing pilots. The Dresden service was simply fantastic. All participants were welcomed with a reception and a tour of the shipyard. The first evening event in the restaurant of the Bülow Palais offered the new members a good opportunity to get to know the association „CMIG“ and its members better.

A large number of technical seminars and the Annual General Meeting determined the Saturday from 09:00-19:00. As expected, the board was relieved and confirmed.

On the occasion of the subsequent dinner together, one heard almost exclusively technical discussions among the highly motivated pilots. The spokesman Dr. Till Werner, who was highly praised for the organization, announced the following meeting next year in Valencia, with many of the participants even suggesting 2 meetings a year because of the variety of topics.

Wuppertal, October 2021
